

INTERNATIONAL SCHOOL OF RECONCILIATION

“Healing Hearts, Transforming Nations”

04-17
March, 2024
Kigali-Rwanda

Are you a Christian leader searching for tools to handle conflict in families, churches and communities?

That's what Healing Hearts, Transforming Nations is all about.

This Bible-based, cross centered approach has been developed by Dr. Rhiannon Lloyd to help the Rwandan church to deal with the aftermath of the genocide against the Tutsi. The tool is now used in different parts of the world suffering divisions and conflict. Families, churches and communities are experiencing healing, forgiveness and reconciliation.

The International school is a bi-annual event that includes the HHTN immersive workshop, training of facilitators and provide trainees to run a practical workshop under coaching, and leave with clear strategies for intervention, and the privilege of being part of a great network of peace practitioners.

You are invited to participate in this training and to experience a fresh encounter with Jesus at the cross. This event will be led by the international teaching team from Africa, Europe, and North America.

Some Expectations

- Experienced ministry leaders will lead you through a process of recognizing wounds in your own life so you can leave your pain at the cross and begin to heal.
- Share with and hear from people from a variety of backgrounds: culturally, racially, politically, and more.
- Learn from respected ministry leaders with years of experience in reconciliation work and how to approach the work of reconciliation in your family, church, and community.

DATES AND TIMETABLE

Full School March 4th-17th.
